PLEASE REJECT NAB's petition 04-160.

As my job calls for traveling, I couldn't wait to get XM Satellite Radio due to its endless possibilities and advantages. I listen to a lot of talk radio, much of what you can't get from major city to major city, yet the satellite radio keeps me fulfilled 24/7.

The travel and weather stations are invaluable and would be a great disservice to every subscriber if this petition were approved.

We work hard for our money and have chosen to spend it on one of the best investments money can buy. XM Satellite Radio has provided a service no one can compare to and are very loyal to their consumers as one would hope you would be also.

Thank you for your time and consideration.
